Hi Guys,

Hope all is good.

I am touching base to inform you that a few of our demand partners have presently flagged the following apps as “problematic” (fraud suspect), and therefore are not buying this inventory:

midasapps.fingertwister2
midasapps.fingertwister
com.thewongandonly.android
com.jqrapps.slowmotionvideo20
com.jqrapps.slowmotionvideo
com.jqrapps.fastandslowmotionvideotool
com.android.thewongandonly.QuickDraw

It is important that you know that we have not yet received any official claims from these advertisers, however, as our partner it is important for us to give you a real-time “heads-up”, for you to be aware.

In the event we do receive any claim, we will, of course, share it with you immediately, otherwise – we will inform you if their current “problematic” status changes.

Best Regards,
